American Watch - MADE AT -

Waltham, Mass.

The American Watch Company, of Waltham Mass., re-pectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adopted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts How they run under the hardest trials watches can

have, is shown by the following letter: PENN. RAILROAD COMPANY. OFFICE OF THE GENERAL SUPERINTENDENT,
ALTGONA, PA., 16 Dec. 1866. GENTLEMEN: The watches manufactured by you have been in use on this railroad for several years by our enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable timekeepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time as correctly, nor have they done as good service, as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

EDWARD H. WILLIAMS, General Superintendent-

American Watch Co., Waltham. We make now five different grades of watches, amed respectively as follows: Appleton, Tracy & Co., Waltham, Mass. Waltham Watch Company, Waltham, Mass. Waltham, Mass. P. S. Bartlett,

Wm. Ellery, Boston, Mass. Boston, Mass. Home Watch Company, All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, on the most approved principle, and to possess every requisite for a reliable time keeper. Every dealer selling these watches is provided with the Company's printed card of guarantee, which should accompany each Watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imita-tions of our Watches sold throughout the country, and we would caution purchasers to be on their guard against imposition. Any grades of Waltham Watches may be pur-

chased of Watch Dealers throughout the country. ROBBINS & APPLETON, 182 Broadway, New York. General Agents. R. B. GRAY & CO.,

A NEW CONTINENT.-One of the me interesting items that we have learned from the whalemen who have cruised in the Artic Ocean the past summer, says a Honolulu paper, is the discovery of extensive land in the middle of that ocean, which may vet prove to be a Polar Continent, The existance of this land has long been known but owing to the impassible ice barrier along its shores, of its extent and character nothing definite has been known until this season. Baron Wrangell, the famous Russian explorer, first communicated to the world the knowledge of its existence, as he

learned it from the Siberian Indians. The same paper publishes a letter from Captain Long, of the bark Nile, who cruised along the entire southern coast and took observations of the same. He did not land. but states that the land was free from snow and had a green appearance as if covered with vegetation. Next season the new continent will be explored and the mystery will be solved. The land is supposed to be inhabited.

CURIOSITY.-A great literary curiosity has been discovered at Salzburg, Austria, by Dr. John N. Berger, who will soon be appointed Austrian Minister of Justice. It is the diary kept by the executioner of Salzburg, who died in that town in 1816, after filling his position for nearly fifty years. In this diary the executioner gives a minute account of the executions of five hundred persons whom he hanged, beheaded, or broke on the wheel during his long career. During the time he whipped several thousand men, women and children for slight offenses. Among the five hundred he executed was a young girl of fourteen, an old man of eighty nine, and his own cousin.

AFFECTION.—As a remarkable instance of filial affection and juvenile philosphy, we present the following: On Tuesday, a lad of twelve or thirteen years of age, visited Caledonia for a doctor. He found Riddle at home taking his siesta, and woke him up with, "Doctor, I want you to come and see dad-he's dying." "Well," says the doctor "If he's dying, I can do him no good." "That's so," rejoined the boy; "he'll be dead in less than an hour," and turning on his heel, added: "Well, by jing, we've all got to die some time or other, and dad

place in the drawing-rooms of people of very aristocratic pretensions. Corres or broth should never be allowed to boil. In coffee the aroma escapes with the steam, and with broth the essence of the

THE San Jose Patriot says that thirteen hundred wagons loaded with families and household fixings have passed over the new grade at San Jose south, for the coast counties. Santa Barbara and San Luis Obispo counties seemed to have the preference of emigrants.

It seems by the above that the emigration fever is not confined to Plumas county alone. ARRIVED. -The Hofy Land excursionists

On TRIAL .- J. C. B. Stanly, who killed Caldwell, at Glendale, about three months since, is on trial for his life before the District Court at Washoe, Judge Harris presiding.-[Ex.

If we are not mistaken in the individual Stanley formerly resided at Indian Bar, East B. anch-at any rate, the name is the same. He used to be a sober, peaceable, industrious miner.

Northing Strange. - A correspondent of the S. F. Times, who was one of the excursionists over the Central P. R. R. on the 7th, states that "the rum punch failed some time before the victuals were exhausted."

PET NAMES.—A Stockton paper states that city, when they present themselves at the Bec, whose duty it shall be to compile the bar, call for a wee drap of "kill-me quick," " Greek fire," " tangle foot," " poison," "strychnine" or " tarantula juice."

Funny.-It is amusing to see the "Regular" party press, led on by the Marysville rated towns and cities, the taxes levied for Appeal, snap, snarl and growl at the Sac. Union and Bee. Their attempts to break down the influence and decrease the circu- 4th. The salaries and fees received by State lation of those papers, is like a child trying officers, exclusive of Notaries Public, apto quench the fires of Mt. Vesuvius with a pointed by the Governor, and their salaries squirt gun.

In the printed instructions of the Overland Express Company to their Agents, appears the following sentence: "Whenever you see an Indian, shoot him."—Ex.

Among the unwritten instructions given by the Indian chiefs to their braves, is the following order: "Whenever you see an Overland Express Agent, shoot him."

Beggine has been reduced to a science in Columbus. The latest application was from a little girl at the street corner; who earnestly pleaded for a "chaw o' tobacco for enough. They have ruled to such an extent nestly pleaded for a "enaw o took her sick and dying mother."—[Ex.

The earnestness with which the Radical press are pleading for Grant's nomination for the Presidency, is similar to the girl's pleading for "a chaw o' tobacco." Both Candid confession, Mr. Commercial, though are pleading for sick relatives.

ANOTHER APOLOGY.—The Bulletin apologizes for Shafter's resignation on the ground of ill-health. Why do the Bulletin and Union wish to screen Shafter's treachery to the Union party? The Union party made him a Judge. Why did not the Judge re-turn the trust to the party giving it?—[Ma-

Since Judge Shafter saw fit to resign his position upon the Supreme Bench, on account of ill-health, the Radical press have set up a terrible howl,—they are awful mad and refuse to be comforted. In the language of the Appeal, slightly altered to suit the Gov. Haight has appo'n'ed a worthy man as his successor. Let the Radicals howl. Judge Shafter! Who has the right to contrel your actions, you, or the party ?"

He is a gentleman in every sense of the word, and is better qualified and more deserving of the position than either of the others above named. Buckbee voted for Sargent until the last ballot when he voted for Brown. Conly was not present. Three resolutions were passed one of which indorsed the course of Conness, one complimented Low, and the other declared that Sargent had rendered the State and Nation great service. The resolutions were intended as sugar coated pills, but we reckon they were nauseating doses for some of the members to swallow.

PRINTING.—The tax-payers of Mariposa County, like those in Plumas, have been outrageously taxed to support a "trooly loyal" party organ. Senator Lawrence in his remarks upon a bill introduced in the Senate, entitled an "Act repealing an Act imposing certain duties upon the Board of Supervisors of Mariposa county, stated that the county printing had cost the county \$2,475 a year for the past two years, while it cu tht not to have cost over \$800 a year. The bill referred to has passed the Senate.

MARCUS D. BORUCK, Clerk of the Assembly at the last session, is still retained as As-

If an assistant is needed, are there no Democrats now in Sacramento, qualified to fill the position? The Democratic members of the Assembly should follow the example set them by the Radical members of the Scnate, and refuse to keep in office their most bitter opponents. We must refer in terms of eulogy to the high tone and varied excellence of Harper's Magazine a journal with a monthly circulation of 170,000 copies-in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American people, and the popularity it has acquired is merited. Each number contvins fully 142 pages of reading matter, appropriately illustrated with good wood cuts; and it combines in itself the racy monthly and the more philo-sophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.-[Tur ner's Guide to American Literature, London

I believe I can prove it, and if nothing happens more than I know of at rresent, I will prove it."

ELECTION RETURNS .- The Sac. Union states that the returns of the Judicial Election have been received from all the counties except Plumas. But one of the Supervisors was present when the returns of the election in this county mere canvassed, hence we suppose the Clerk did the pastor's. not feel justified in certifying to and sending the returns to the Secretary of State's office.

Snow .- " The snow, the beautiful snow " has come at last. The first regular snow-storm of the season made its advent here on Monday night last, and continued, with slight interruptions of rain and sun-shine, until Thursday, leaving the ground in the valley covered to the depth of about one foot. On the mountains it is several feet deep. Garland started out on Thursday with a six-horse team and his new sleigh, to comm the almost herculean task of keeping the Oroville road open for travel during the winter-which feat we are in hopes he will succeed in doing.

On Thursday, when the above was written the storm had apparently ceased, but on Friday It commenced snowing again, and still continues. The snow is about 20 inches deep and very solid, consequently the sleighing in the valley is excel, lent. On the mountains the storm has been very severe and the snow is from six to ten feet deep.

LA PORTE -" I. Vum " sends us the communication in which he refers to the earth-quake felt there on the let, a notice of which has already been published. He also states that a bloody war, on a small scale, has been carried on for some time past, between a couple of "sorry creatures" in that town, in which knuckles and black eyes, knives, sharp and long, pistols loaded to the muzzle, ink and buckets, of water, threats curses, etc., were brought into requisition and finally, the majesty of the law, which heals all ds-or makes them larger-was appealed to. Each party was forced to pay the costs incurred in the suits, and the cases were dismissed. He also mentions that something "rich" happened to a certain gent from this vicinity, who was on a wisit to that burgh, but gives no particular .-What was it? Give us the facts of the case.

LAW OF NEWSPAPERS .- " Enquirer" informs us that after a weekly paper had been sent to him regularly for several months, without his ever having ordered or subscribed for it, the proprietor or agent called upon him for the subscription price, and asks us if he could be compelled to pay it. Enquirer, having taken the paper from the office, is liable for the subscription. He should have refused to take it from the office if he did not want it. The law compels postmasters to give immediate notice to publishers, whenever a party refuses to take their paper from the office, and also to notify them whenever their papers remain in the office uncalled for. One of the laws of newspapers is, "If subscribers wish their papers discontinued, publishers may continue to send them until all charges are paid."

CHRISTMAS TREE. - Remember the Christmas Tree at the Plumas House Hall, on Wednesday night, the 25th. All articles intended to be placed upon the tree should be handed in to the Committee at the Hall, by noon on Wednesday. A pleasant time may be expected. As was stated in our paper last week, a cordial invitation is extended to all of the citizens of American Valley, to take part in the festivities of the occasion. Go yourselves and take the little ones. Santa Claus has a list of the names of all the children, and if they are not present to welcome him he he will feel slighted. After the presents are distributed, the room will be cleared, music will be furnished, and all who feel disposed can indulge in a social dance.

SCHOOL MONEY .- Sup't Meylert has apportioned the sum of \$200, county school money, to the Taylorville District. The State apportionment will be made in February, when there will prob-Taylorville school is the only one of the 1st grade in the county, and suffers just now from too much "grade," as there is no teacher available holding a high enough certificate. The consequence is the loss of the benefit of the public money, but as far as teaching is concerned, says our correspondent, it is certain that Mr. Boyden, with his JOHN E. EBERLE rs. LISETTE EBERLE : private school, is giving as much satisfaction to parents as his predecessor, of many certificates.

DIVINE .- Several energetic members of the church, at Taylorville, have fitted up Fairchild's Hall, (the old Aschbeim store) and furnished it with comfortable seats and a good stove. And what is of still more moment, the pulpit is supplied with a man of culture and ability, and for the first time for years, the citizens have an opportunity of spending every Sabbath day after the manner of Christian people. During Mr. Mc-Grath's term, service was not regular. Mr. Anderson, the present pastor, has made a most favorable impression, and if the attendance is not good, the reproach will be the public's, and not

COARSE GOLD .- We hear that Mr. Carr has found coarse gold in his claims on Mill Creek, (between Rich Bar and Fales Hill.) Some of the pieces weighed as high as an ounce. But little mining or prospecting has ever been done in Mill Creek. A few shafts have been sunk and in all ed, and he was thrown down and struck by anoth- bowlders are so thick and large that it would be located and worked on the creek.

TO THE LITTLE FOLKS .- The following advice which we find in an exchange, all little boys and girls will do well to heed: "If your sister, while engaged in a tender conversation with her tender sweetheart, asks you to bring a glass of water from the adjoining room, you can start on the errand, but you need not return. You will not be missed, that's certain; we've seen it tried.-Don't forget this, little boys."

Sociables .- The institution of the winter at Taylorville, is the Thursday night dance. Membership only costs \$2 50 per month, and a man gets as much as six bit; worth each evening, it is certain. Outsiders, not regular stockholders, can come in for \$1 per night. It is the only sociable place in town. The music is good, the company pleasant, and everything an fait.

UNKNOWN .- We have received a number of eports and other public documents, from some centlemanly member or members of the Legisla ure. We are unable to state who they are, as o name appears upon the documents.

"And when they riz up early in the mornin' behold they was all dead corpuses.

My frens and hearers, I will preach onto you this day-win and weather permittinfrom the thirty-sevingth chapter uv Isaisy, thirty-sixth verse. "An the destroyin angel smote in the camp uv the Syrcenians a hundred and forescore and five thousing men ah. And when they riz up early in the mornin, behold they was all dead corpuses." And thus it is, my unconverted frens and hearers, that the destroyin angel stalks abroad with his meat-axe read to sen us to the boneyard befo we kin set down to breakfast ah. An it is said, my frens, that roses are red and violets are blue-ah, but it's no use a tryin to honey-fuggle round the angel Gabriel when he toots his horn fur yo to tuck yer tails and git under dirt ah. "An when they riz up early in the mornin, behold they was all dead corpuses."

My wretched brethering and sissering, es I was a ridin along the road one day, I seen a man sittin on the top uv his fence, with a double barrel shotgun on his lap ah, an a swettin an a fannin uv hisself with an old straw hat, and a cussin uv the forthe uv July, an Norte Ameriky, an the Constitution an the Supreme Court, an the bird uv liberty an the President uv the United States-ah, an when I heern that man a cussin, and seen that big shotgun, thinks I to mysel, in the words uv the tex-ah : "An when they riz up early in the mornin, behold they was all dead corpuses."

An I tole roan to wo, an says I, my ungodly fren, it yo swar in that ar way, yo will forever an internally ruinate yo immortal soul ah, an never get a nibble when you go a fishin-ah ;" an sez he, "You go to hell you dam'd ole mishapen, misbegotten mistake of creation ah, if yo had to git the grass out uv a cotton crop with free niggers, yo'd git upon a stump and cuss yoself out ov yo damned ole yallar hide and go to hell for yo health-ah." An sez I, "my errin fren, it cuts me to the marrer to see yo struglin in the bondag uv sin-ah." An sez he, "My punkin faced customer, of yo can climb that tall red oak tree thar, an see anythin in this here miserable lan but bondag and crab grass you kin take my hat for a henness-ah." An sez I, "My hard swearin fren, I am fraid yo will never register yo name in the book uv internal life-ah." An sez he, "I went to town last Monday to register, an I couldn't get a sight uv the book fur the dam greasy niggers-ah." "Oh, mistaken human," sez I, "I trimble fur yo future, for yo air on the road leadin to perdition ah." An sez he, "yo air a dam'd ole liar, for I'm on the road a leadin to Benton ah." I heaved a groan, dead corpuses."

An sez he, "Let em riz an be be dam't to em all." "Oh, my sufferin feller creatur," sez I, "ef yo would but sue fer grace, yo might cum to jine that hevingly quire, an be mancipated from the shackles of sin-ah." An he cocked up his gun, and sez he, "I had twenty-six likely niggers mancipated on my hans, and if yo open yo jaw bout mancipation to me again, I'll make buzzard vittles out uv yo dam'd old swiveled up carkass befo hell could cripple uv a gnat ah." My constant frens and hearers, when I seen that wicked man a cockin uv his gun-ah, I began to feel exceeding jubous, and the words uv the tex smoted upon my car-ah-"An when they riz up early in the mornin, behold they was all dead corpuses."

But, my Christian hearers, I felt called upon to try my han one more time on this objurit man ah ; an sez I, "My blasphemous fren, you are continually and forever dam'd ef you don't immejitly get down ofen that air fence-ah, and go to some sequestered spot-ah, and pray for your soul's redemption-ah." An he jumped down ofen the fence she nuff ah, but he didn't go to no sequestered spot-ah; but, my unconscious hearers, he stuck that big ole double barreled shot gun close up to my reverend headah, and sez he, "I hearn a sequester was the next thing to a confiscator, an ef that's yer business in this yer settlement, yo had better begin to grow mighty dam small and beautifully less ah." An my hearers, it looked to me as if a drove uv mules could have trotted down the barrels of that air old shotgun-ab, an I put spurs to ole Roan and I galluped through the wilderness fur fo an twenty hours ah ; and thinks I, my hearers, if that air man don't pull up soon, he'll git to the end uv his rope ah." "An when they riz up in the mornin, behold they was all dead corpuses."

And sho nuff, my patient hearers, in about three days that proffauated man was tuk up by the freedman's buro and tried by a military commission and hung for killin uv a nigger-ah; and my lisnin frens and hearers, when I seen him a standin on the great immensity uv space, an a kickin at the foth district, sez I to myself, in the languig uv the inspired himmister-ah,

One more sinner dead and gone, A silver spade to dig his grave,

A golden chain to let him down, A bugle horn to blow him on-ah. "An when they riz up early in the mornin, behold they was all dead corpuses."

Northeast Corner Kearney and Jackson streets, San Francisco.

The Great Eradicator of Special Complaints, Formerly of Locke Hospital, London, Eight Years in Sacramento and The Last Four in San Francisco.

DR. TOZER'S experience is of forty years standing, and during that time he has met with unparalled success in the treatment of all those diseases generally known as

Venereal or Chronic. Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers, in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form all opinion in regard to their complaints, and seek advice in time, thereby saving them a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the Limbs, Headache, and an aversion to Genial Society, especially that of Females. There are a great many more, but these are sufficient, and should you be suffering from any of them, gall on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter and there will be no occasion for your calling at the office.

Stricture of the Urethra Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Sacramento City, June 1, 1868

Dr. Chas, H. Tozer—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called an you for assistance about a year ago. The roof of my mouth had completely rotted out, and my palate dropped down and there remained, stopping up the passage so that Loudd hardly eat. You remember you cut it out at ence, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine and followed your directions for several months. You finally succeeded in stopping the disease, saving my nose, and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, that I might have a plate made for me to enable me to speak so as to be unme to go into the sum of my mouth, that I might have vice, I had a cast taken of my mouth, that I might have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health and even for my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you, should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for your success, I remain, yours, etc. To Dr. Chas: H. Tozer, San Francisco, Cal.

NEW ERA IN LITERATURE.

MR. FRANK LESLIE, one of the United States Commissioners to the Universal Exposition in Paris has availed himself of his visit abroad to introduce some new and very interesting features in his popular publications. He has arranged with a number of the leading authors and artists of Europe to furnish Novels, Narratives and Engravings, which will appear originally in his publications, instead of at second hand, or through the stale expedient of what are called Advance Sheets, thus practically settling the copy right question by purchasing his literary material at first-hand. This is a bold movement, and will prove to be a remunerative one, since "Honesty is the best policy." The first of these novelties is

He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise will receive the best and gentlest treatment and implicit secrecy.

DR. DOHERTY would call attention to the following certificates, from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary

The welfare of society imperiously demand their publicity and they are given more to warn the un-wary than to sound the praises of a Physician, of whom hundreds of like cases can be cited, during a practice of more than fifteen years.

A CASE OF GLEET AND STRICTURE :-Dr. Doherty—Dear Sir: 1 feel my health so fully restored, that in common gratitude, I believe I should make some written acknowledgment for your valuable services—particularly so as your fee was small for the work performed. I arrived in this city from the East about one year ago ived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with stricture. Being a stranger in this city, and believing those doctors who gave this city, and bett assurances of success were necessarily such positive assurances of success were necessarily the best (some of whom have a large number of titles,) I placed myself in their charge and continuity. I had lest nearly all ued under their treatment until I had lost nearly all hope and a considerable sum of money. I wish to say now that you are the sixth Doctor I have emsay now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the stricture is all removed, and my general health is better than it has been for years. In conclusion I would say to the many unfortunates who require medical advice, if you have any doubt as to whom nedical advice, if you have you may employ, ask Dr. Doherty for my address, and call and see me. (I keep store in this city.)—and call and see me. (I keep store in this city.) and call and see me. (I keep store in this city.)—
My experience may save you many dollars. I
would also add that in the early stage of my disease, I used a large amount of the preparations advertised as an infallible c re for Gonorhoea, Gleet, etc., but never derived any benefit from them. am, Doctor, very truly yours.

SEMINAL WEAKNESS .- A sworn to certificate of a most remarkable cure of Spermatorrhoea— A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been A desire to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhoea." or Seminal weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience in that year, however, I had Seminal weakness to a fearful extent, which was soon followed by the most alarming symptoms, as weakness of the back and limbs, pain in the head, dinness of vision, nervousness and general debility. My mind too, was afflicted to such an extent as to seriously impair my memory my ideas were confused and spirits depressed, I was averse to society, had evil forbodings and self-distrust and was entirely unfit for any of the dutios of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars but in instance obtained more than temporary relief, I had about concluded there was no relief for me in this world, but treading Dr. Doherty's advertisement thought I should call and see him, as he charged nothing for consultation. I had an interview with the properties of the proper afflicted, I subscribe myself JAMES JOHNSON.

DR. J. C. YOUNG, IN 1850. 536 Washington Street,

SAN FRANCISCO.

Consultation by letter or Otherwise, Free.

T WOULD BE EQUALLY USELESS AND UNNECESSARY to enumerate here the Diseases cured at the Institute.
All classes of Complaints are treated; but I consider it my
duty to mention those of a special nature, as upon such
the unfeeling and irresponsible quack dwells, with phrases
well calculated to deceive those ignorant of the emptiness First among the special complaints is

SEMINAL WEAKNESS.

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who suffer languish and decay, the true cause of their affliction, is too great an incentive to be forced into abeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell, but its presence can be detected by the most inexperienced by noting the following symptoms: Weakness of the back and limbs; languishing feelings; loss of muscular power; nervousness; irritability; cold feet and hands, accompanied by hot head; symptoms of consumption; short breath flushings of the face; aversion to society; confusion of the mind; loss of memory; nightly emissions; colorless, slight discharges upon the least excitement; trembling; palpitation of the heart; irregular appetite; variable temper, etc. YOUNG MAN if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which, you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in the slighest degree, you have the seeds of the weakness in your system, and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is not a disease that declares itself at once. Therein lies its great danger; for while the patient is being treated for some supposed affection of the Heart, Lungs, Brain, or Digestive Functions, he sinks into a general debility that soon adds him to the list of the victims of the terrible disorder, Seminal Weakness.

Seein the bent form and languishing steps, the poor victim of the fascinating vice! Mark the course of the destructive complaint in the bollow cheek and, dull eye!

Drowsiness is one of the premouitory symptoms. At first it is easily shaken off, but it g great disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights succeed

days of depression.

It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery.

In a single instant it may wither your fond hopes and blast

our honest aspiration.

Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hopes of recovery. Or if the marriage should result in offspring, they are puny, distorted decrept and degenerate. torted, decrepit and degenerate

TESTIMONIAL OF CURE.

Let all who are afflicted with Seminal Weakness read the sworn-to-Certificate, first published without the Doc-

afflicted with Venereal: There are no maladies worse than those arising from the contamination of venereal poison. None are more terrible in their effects, or more disastrous in their results. After upwards of twenty years' practice in diseases of a private nature—fifteen of which have been in this city—I unhesitatingly declare that Mercury will not cure. Venereal, but dries it on the surface, to allow itto poison the blood, to re-appear in hideous marks upon the body, and in the throat; mouth and nose: Those who have had any form of Venereal, and were treated with Mercury were not cured, but they still have the festering virus lingering in the system and feeding upon the delicate tissues to be communicated to the wife or transmitted to the children. As terrible as it is in the person who contracts it, it becomes of still greater importance when transmitted to innocent offspring, whose sore heads, cankered mouths, diseased imbs, running eyes and blotched skin are the constant reproaches to the sins of the parent. IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be Where is there a physician who is fully competent to administer relief, and whose respectable standing in society Will recomend him to the confidence of the commuadminister rener, and whose respectative standing in somety will recommend him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetries and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superstail planner, but in as thorough a manner as years of ter in all cases, both medically and snrgically, not in a su-perficial manner, but in as thorough a manner as years on study and practice—both in hospitals and private families— can make, to save them from the hands of the unqualified, unscrupulous and lesigning.
